ITALIAN MUNICIPALITIES AWARD

Events and ambitious venture in the history of the AT group for sure are not lacking.

Just remember IOTA DAY, I.P.A. 2017, etc...

Despite this, after more than 40 years, we are about to launch something unique and extremely ambitious.

**Everyone, AT and NOT,
from all over the world
can participate as
hunters;
All Italian AT can
participate both as
hunters and as activators
Nearly 8.000 references
to activate
Unlimited duration**

With this brief but impressive premise we announce the

ITALIAN MUNICIPALITIES AWARD

Award of the Italian Municipalities or more briefly I.M.A. is a [Permanent Award](#), organized with the best of experience and technology that only the AT Group is able to express.

Open to all 11-meter operators, the participation is completely free, with the aim of keeping our favorite band alive and bringing as many stations as possible on air in search of the highest number of Italian Municipalities.

A dedicated web site will allow the activators to announce their activations, to send their proofs and logs in order to draw up in (almost) real time and with constant frequency two distinct rankings:

GENERAL and **ANNUAL**,
each for both **HUNTERS** and
ACTIVATORS categories.

The **GENERAL** ranking will be valid from
the beginning of the event and will have
a permanent and unlimited duration.

The **ANNUAL** ranking will be valid for
one year and the winners of the two
categories will be awarded each year at
the **AT World Meeting**.

For all participants, will be permanently
available in free digital download format
the **I.M.A. (Italian Municipalities Award)**,
both in the version dedicated to
HUNTERS and in the version dedicated
to ACTIVATORS.

Each AT Italian operator (division 1 &
165) in good standing with the renewal,

can qualify as an activator, following the
specific regulation that will allow them to
activate both the reference of their
municipality of residence and any other
municipality.

*At last count there were
about 8,000!*

**All operators in the world will
be able to participate as
HUNTERS , feeding a hunter-
prey scheme never seen on 11
meters.**

All detailed information and complete
rules are available at
