"When there is freedom, everything else is superfluous." (Jose de San Martín)

The Independence Day of the Argentine Republic is celebrated every July 9 of each year, having its origin in the commemoration of the signing of the Declaration of Independence of Argentina, on Tuesday, July 9, 1816 in the house of Francisca Bazán de Laguna, declared a Historic Monument in 1941.

On July 9, 1816, the deputies of the United Provinces of the Río de la Plata met in San Miguel de Tucumán and declared their independence from the Spanish Government for the Provinces of Argentina, Uruguay, Paraguay, and Bolivia.

The family home where the historic meeting took place is now a museum known as the Casa de Tucumán or Historic House of Independence.

The date of the meeting inspired the name of the widest avenue in the world, Avenida 9 de Julio, in the City of Buenos Aires.

The people celebrated, there was dancing in the streets. Everyone shouted: "Long live Independence! Long live freedom!" On July 25 a parade of five thousand militiamen, led by General Belgrano, took place.

Argentina was finally a free and sovereign country.

As this historic event is so important for our Country, Argentina Alfa Tango Team obtained authorization to carry out a S.E.S. from the 1st to the 31th of July. The callsign will be: **4AT/IND OP. NAME.**
